1997 *FPJ* SUBJECT AND AUTHOR INDEX

All of the articles in the 1997 *Forest Products Journal*, volume 47, are listed both by subject and by author. Reprints of most articles are available at $6 each. Bulk rates are also available. Please give reprint numbers when ordering. When printer-quality reprints are no longer available, photocopies can be ordered at 50 cents per page. All orders are subject to a $6 minimum charge plus 15 percent shipping and handling, 20 percent in other countries. There is a charge of $6 for a copy of the 1997 *FPJ* Subject and Author Index.

ADHESIVES/ADHESION

Enhanced Adhesion of Melamine-Urea and Melamine Adhesives to CCA-Treated Southern Pine Lumber, C.B. Vick, 7/8:83-87 (No. 8580).

Evaluations of Three Adhesive Systems for CCA-Treated Lumber, T. Sellers, Jr. and G.D. Miller, Jr., 10:73-76 (No. 8611).

Fillers for Plywood Adhesives Made From Acid Hydrolysis Residues of Municipal Newsprint Wastes, Y. Oh, T. Sellers, Jr., M.G. Kim, and R.C. Strickland, 10:107-110 (No. 8614).

Structurally Durable Epoxy Bonds to Aircraft Woods, C.B. Vick and E.A. Okkonen, 3:71-77 (No. 8517).

Surface Tension, Adhesive Wettability, and Bondability of Artificially Weathered CCA-Treated Southern Pine, H.J. Zhang, D.J. Gardner, J.Z. Wang, and Q. Shi, 10:69-72 (No. 8562).

AIR AND WATER QUALITY

Formaldehyde Emission From Solid Wood, B. Meyer and C. Boehme, 5:45-48 (No. 8529).

Storm Water Discharge Regulations Affecting the Eastern Forest Products Industry, W. Luppold, 6:32-38 (No. 8553).

ANATOMY AND QUALITY

A Method for the Characterization of Knots in Logs, H. Lemieux, A. Usenius, and M. Samson, 2:57-62 (No. 8465).

CHEMISTRY AND CHEMICAL MODIFICATION

Effect of Aging and Temperature on the Resistance to Spur Penetration in Red Pine Poles Treated With CCA-PEG 1000, R. Gilbert, A. Besner, and P. Octeau, 3:81-88 (No. 8496).

Effect of MC and Penetration Direction on the Distribution of Styrene in Red Maple, M.H. Schneider and A. Omidvar, 11/12:97-101 (No. 8568).

COMPOSITES AND ENGINEERED PRODUCTS

Edgewise Bending Properties of Laminated Veneer Lumber: Effect of Veneer Grade and Relative Humidity, R.C. Tang and J.H. Pu, 5:64-70 (No. 8515).

Effect of Silvicultural Practice and Veneer Grade Layup on Some Mechanical Properties of Loblolly Pine LVL, T.F. Shupe, C.Y. Hse, L.H. Groom, and E.T. Choong, 9:63-69 (No. 8530).

Effect of Temperature on the Creep of Commercial Oriented Strandboards Under Cyclic Relative Humidity, R.C. Tang, J.H. Pu, and E.W. Price, 7/8:100-106 (No. 8493).

Effects of Hot-Pressing on Properties of White Spruce, T. Tabarsa and Y.H. Chui, 5:71-76 (No. 8538).

Efficiency of Reinforcing Materials in Filled Polymer Composites, J. Simonsen, 1:74-81 (No. 8395).

Flexural Properties of Bamboo-Reinforced Southern Pine OSB Beams, A.W.C. Lee, X. Bai, and A.P. Bangi, 6:74-78 (No. 8519).

Mechanical Properties of OSB Via the Five-Point Bending Test, J.P. Bradtmueller, M.O. Hunt, K.J. Fridley, and G.P. McCabe, 9:70-77 (No. 8153).

A Moist-Liberation Process for Producing Dry Secondary Fibers, B.C.H. Sun and R.N. Hawke, 4:74-79 (No. 8524).

Natural Durability and Physical Properties of Particleboard Composed of White Cypress Pine and Radiata Pine, P.D. Evans, J.W. Creffield, J.S.G. Conroy, and S.C. Barry, 6:87-94 (No. 8540).

Properties of Polyisocyanate Resin Consolidated Composites Made From Secondary Fibers of Corrugated Containers, B.C.H. Sun and R.N. Hawke, 2:80-88 (No. 8471).

Red Maple Lumber Resources for Glued-Laminated Timber Beams, J.J. Janowiak, H.B. Manbeck, R. Hernandez, and R.C. Moody, 4:55-64 (No. 8522).

DETERIORATION/DEGRADATION AND PRESERVATION

The Ability of Physical Treatments to Reduce Checking in Preservative-Treated Slash Pine Posts, P.D. Evans, R. Wingate-Hill, and R.B. Cunningham, 5:51-55 (No. 8492).

Ability of Polyethylene Boots to Protect the Belowground Portion of Small Stakes Against Decay, T.C. Scheffer and J.J. Morrell, 5:42-44 (No. 8531).

Boron Diffusion Treatment of Aspen Lumber Stored Under Various Relative Humidities, M.E. Puettmann and E.L. Schmidt, 10:47-50 (No. 8628).

Chemical Brown Staining of Douglas-fir Wood: Characterization of a Wood Enzyme Extract, M.L. Laver and D.A.A. Musbah, 4:93-98 (No. 8512).

Decay Evaluation of the Effectiveness of an LOSP Envelope Treatment in *Eucalyptus Regnans* Heartwood, L.J. Cookson and E.F. Dougal, 1:67-73 (No. 8438).

Decay Resistance and Microscopic Analysis of Wood-Cement Composites, B. Goodell, G. Daniel, J. Liu, L. Mott, and R. Frank, 11/12:75-80 (No. 8635).

The Effect of DDAC on the Penetration of Borates into Western Hemlock, P.I. Morris and A. Byrne, 4:71-73 (No. 8503).

The Effect of Steaming Prior to Pressure Treatment on the Penetration of Borates Into Western Hemlock, P.I. Morris, A. Byrne, J.F.G. Mackay, and S.M. McFarling, 3:62-65 (No. 8502).

Effects of Ammoniacal Copper Citrate Preservative Treatment and Redrying on Bending Properties of Two Grades of Southern Pine 2 by 4 Lumber, J.E. Winandy and S.T. Lebow, 7/8:91-99 (No. 8554).

Effects of Creosote Oil on the Mechanical Properties of Selected Uganda Timbers, E.J.K.B. Banda and M.N. Twesigye-Omwe, 10:56-58 (No. 8551).

Effects of Fire Retardant Retention, Borate Buffers, and Redrying Temperature After Treatment on Thermal-Induced Degradation, J.E. Winandy, 6:79-86 (No. 8550).

Effects of Fumigants on Parenchyma Viability in Red Oak Log Sections, E.L. Schmidt and E.R. Christopherson, 5:61-63 (No. 8521).

End Coating Logs to Prevent Stain and Checking, A. Linares-Hernandez and E.M. Wengert, 4:65-70 (No. 8488).

Evaluation of Dog-Assisted Searches and Electronic Odor Devices for Detecting the Western Subterranean Termite, V.R. Lewis, C.F. Fouche, and R.L. Lemaster, 10:79-84 (No. 8607).

Chemical Brown Staining of Douglas-fir Wood: Characterization of a Wood Enzyme Extract, M.L. Laver and D.A.A. Musbah, 4:93-98 (No. 8512).

Decay Evaluation of the Effectiveness of an LOSP Envelope Treatment in *Eucalyptus Regnans* Heartwood, L.J. Cookson and E.F. Dougal, 1:67-73 (No. 8438).

Decay Resistance and Microscopic Analysis of Wood-Cement Composites, B. Goodell, G. Daniel, J. Liu, L. Mott, and R. Frank, 11/12:75-80 (No. 8635).

The Effect of DDAC on the Penetration of Borates into Western Hemlock, P.I. Morris and A. Byrne, 4:71-73 (No. 8503).

The Effect of Steaming Prior to Pressure Treatment on the Penetration of Borates Into Western Hemlock, P.I. Morris, A. Byrne, J.F.G. Mackay, and S.M. McFarling, 3:62-65 (No. 8502).

Effects of Ammoniacal Copper Citrate Preservative Treatment and Redrying on Bending Properties of Two Grades of Southern Pine 2 by 4 Lumber, J.E. Winandy and S.T. Lebow, 7/8:91-99 (No. 8554).

Effects of Creosote Oil on the Mechanical Properties of Selected Uganda Timbers, E.J.K.B. Banda and M.N. Twesigye-Omwe, 10:56-58 (No. 8551).

Effects of Fire Retardant Retention, Borate Buffers, and Redrying Temperature After Treatment on Thermal-Induced Degradation, J.E. Winandy, 6:79-86 (No. 8550).

Effects of Fumigants on Parenchyma Viability in Red Oak Log Sections, E.L. Schmidt and E.R. Christopherson, 5:61-63 (No. 8521).

End Coating Logs to Prevent Stain and Checking, A. Linares-Hernandez and E.M. Wengert, 4:65-70 (No. 8488).

Evaluation of Dog-Assisted Searches and Electronic Odor Devices for Detecting the Western Subterranean Termite, V.R. Lewis, C.F. Fouche, and R.L. Lemaster, 10:79-84 (No. 8607).

Evaluation of the Efficacy of Selected Thermal Boron Treatments in Eliminating Pests in Freshly Peeled Douglas-fir Logs, W. He, W.J. Simonsen, H. Chen, and J.J. Morrell, 3:66-70 (No. 8504)

Evaluation of Poplar Wood Chips After 19 Years of Burial as Swamp Roadway Fill, E.Schmidt, G. Cochran, C. Schrader, and E. Lukanen, 7/8:72-74 (No. 8603).

Fixation and Leaching of Red Maple (*Acer rubrum* L.) Treated With CCA-C, P.A. Cooper, Y.T. Ung, and D.P. Kamdem, 2:70-74 (No. 8460).

Fungal Discoloration of Kiln- and Air-Dried Scots Pine Lumber in Aboveground Testing and its Assessment by Digital Image Processing, N. Terziev, 9:43-46 (No. 8577).

Investigation of Bis-[1-(dimethylamino)-2-propanlato] Copper (II) as a Wood Preservative, W. He, J. Simonsen, and J.J. Morrell, 11/12:69-74 (No. 8602).

Iodomethane as a Methyl Bromide Alternative for Prevention of Non-Microbial Enzyme Stain (Gray Stain) of Hardwoods by Log Fumigation, E.L. Schmidt and T.L. Amburgey, 7/8:88-90 (No. 8585).

Log Fumigation Prevents Sticker Stain and Enzyme-Mediated Sapwood Discolorations in Maple and Hickory Lumber, E.L. Schmidt, D.L. Cassens, and J. Steen, 9:47-50 (No. 8610).

The Physical Properties of Boards Treated With Vapor Boron, R. Hashim, R.J. Murphy, D.J. Dickinson, and J.M. Dinwoodie, 1:61-66 (No. 8407).

Preservative Treatment Evaluation of Red Maple and Yellow-Poplar With ACQ-B, J.J. Slahor, C.C. Hassler, R.C. DeGroot, and D.J. Gardner,4:50-54 (No. 8510).

Preservative Treatment Evaluation With CCA and ACQ-B of Four Appalachian Wood Species for Use in Timber Transportation Structures, J.J. Slahor, C.C. Hassler, R.C. DeGroot, and D.J. Gardner, 9:33-42 (No. 8608).

Proteinases as Potential Targets for New Generation Anti-Sapstian Chemicals, L. Abraham, C. Breuil, D.E. Bradshaw, P.I. Morris, and T. Byrne, 9:57-62 (No. 8564).

The Role of Pre-Infection of Green Douglas-fir Lumber in Aboveground Decay in Structures in California, M. Dietz and W.W. Wilcox, 5:56-60 (No. 8482).

Treatability of Douglas-fir Heartwood With ACZA or CCA: Effect of Site, Silvicultural Practice, and Wood Properties, S. Hong and J.J. Morrell, 10:51-55 (No. 8214).

Treatability of Ezo Spruce and Dahurian Larch From the Russian Far East With CCA-B, G-H. Kim, W-G. Jee, and J-J. Kim, 5:49-50 (No. 8569).

Treatment of 8/4 Hardwood Lumber With Borate Preservatives, P.Y.S. Chen, M.E. Puettmann, L.H. Williams, and D.D. Stokke, 6:63-68 (No. 8455).

Use of Anti-Stain Chemical Treatments by the Western U.S. Softwood Lumber Industry, 1994, E. Hansen and J. Morrell, 6:69-73 (No. 8536).

Drying and Storage

Commercial-Scale RF/V Drying of Softwood Lumber. Part 3. Energy Consumption and Economics, S. Avramidis and R.L. Zwick, 1:48-56 (No. 8462).

Compression-Rolling Reduces Kiln Brown Stain in Radiata Pine Sapwood, B. Kreber and A.N. Haslett, 7/8:59-63 (No. 8576).

The Economic Benefits of Sorting SPF Lumber to be Kiln-Dried on the Basis of Initial Moisture Content, S. Warren and G. Johnson, 3:58-61 (No. 8500).

Effect of Two Drying Schedules on Spruce Pine Lumber Defects, T.F. Shupe, O.V. Harding, E.T. Choong, and R.H. Mills, 1:57-60 (No. 8467).

Estimating Kiln Schedules for Tropical and Temperate Hardwoods Using Specific Gravity, W.T. Simpson and S.P. Verrill, 7/8:64-68 (No. 8579).

Evaluation of Electric Moisture Meters on Kiln-Dried Lumber, G. Wengert and P. Bois, 6:60-62 (No. 8547).

Postsorting of Hem-fir: A Mill Study, M.R. Milota and Q. Wu, 2:49-56 (No. 8477).

Simulation of *Pinus radiata* Veneer Drying: Moisture Content and Temperature Profiles, S. Pang, S.G. Riley, and A.N. Haslett, 7/8:51-58 (No. 8528).

Energy Generation and Conservation

United States Wood Biomass for Energy and Chemicals: Possible Changes in Supply, End Uses, and Environmental Impacts, K.E. Skog and H.N. Rosen, 2:63-69 (No. 8434).

Engineering and Mechanical Properties

An Alternative Method for Shear Strength Assessment, E.M. Lang, 11/12:81-84 (No. 8639).

Behavior of 8-d Nailed Stud-to-Sheathing Connections, R.E. Kalkert and J.D. Dolan, 6:95-102 (No. 8489).

Bending Strength of Corner Joints Constructed With Injection-Molded Splines, C.A. Eckelman and F-C. Lin, 4:89-92 (No. 8560).

Bending to Shear Ratio Approach for Beam Design, L.A. Soltis and D.R. Rammer, 1:104-108 (No. 8480).

Design Axial Withdrawal Strength From Wood: I. Wood Screws and Lag Screws, T.E. McLain, 5:77-84 (No. 8526).

Design Axial Withdrawal Strength From Wood: II. Plain-Shank Common Wire Nails, T.E. McLain, 6:103-109 (No. 8527).

Development of Tension and Compression Creep Models for Wood Using the Time-Temperature Superposition Principle, B.H. Bond, J. Loferski, J. Tissaoui, and S. Holzer, 1:97-103 (No. 8261).

Economic Feasibility of Improved Strength and Stiffness Prediction of MEL and MSR Lumber, J. Biernacki, F. Lam, and J.D. Barrett, 11/12:85-91 (No. 8620).

The Effect of Age at Harvest on Bending and Tensile Properties of Loblolly Pine From the Coastal Plain, R.H. McAlister, A. Clark III, and J.R. Saucier, 5:85-88 (No. 8506).

Effect of Initial Spacing on Mechanical Properties of Lumber Sawn From Unthinned Slash Pine at Age 40, R.H. McAlister, A. Clark III, and J.R. Saucier, 7/8:107-109 (No. 8520).

Effects of Silvicultural Practice and Moisture Content Level on Loblolly Pine Veneer Mechanical Properties, T.F. Shupe, C.Y. Hse, E.T. Choong, and L.H. Groom, 11/12:92-96 (No. 8534).

Effects of Silvicultural Practice and Veneer Layup on Some Mechanical Properties of Loblolly Pine Plywood, T.F. Shupe, C.Y. Hse, G.A. Grozdits, and E.T. Choong, 10:101-106 (No. 8533).

Evaluation of Creep Behavior of Structural Lumber in a Natural Environment, Y. Shen and R. Gupta, 1:89-96 (No. 8472).

Evaluation of the MOE of Norway Spruce by the Resonance Flexure Method, D.W. Haines and J-M. Leban, 10:91-93 (No. 8601).

Experimental Assessment of the Effect of Length on the Tensile Strength of Structural Fingerjoined Lumber, C. Beaulieu, C. Verreault, C. Gosme, and M. Samson, 10:94-100 (No. 8578).

Measurement of Poisson's Ratios for Yellow-Poplar, A.G. Zink, R.B. Hanna, and J.W. Stelmokas, 3:78-80 (No. 8546).

Parameter and Quantile Estimation for the Distributions of Failure Strength of Structural Lumber, S.R. Durrans, M.H. Triche, S.E. Taylor, and F.E. Woeste, 4:80-88 (No. 8473).

Properties and Grading of Southern Pine Timbers, D.W. Green and D.E. Kretschmann, 9:78-85 (No. 8598).

Relationship Between Log and Lumber Modulus of Elasticity, R.J. Ross, K.A. McDonald, D.W. Green, and K.C. Schad, 2:89-92 (No. 8483).

The Relationship Between Stress Wave Transmission Characteristics and the Compressive Strength of Biologically Degraded Wood, R.J. Ross, R.C. DeGroot, W.J. Nelson, and P.K. Lebow, 5:89-93 (No. 8548).

Visual Stress Grades of Dahurian Larch Lumber, R.L. Ethington, R.Gupta, and D.W. Green, 1:82-88 (No. 8476).

Lumber Production

The Interaction of Sawing and Edging Operations on Red Alder Finger-Joint Cut-Stock Production, C.C. Brunner, A.G. Maristany, J. Anderson, J.W. Funck, and D.A. Butler, 7/8:75-82 (No. 8567).

Survey of the Training Needs in Oregon's Lumber Manufacturing Industry, T.D. Brown and S.S. Niemiec, 1:29-32 (No. 7889).

Within-Grade Quality Differences for 1 and 2A Common Lumber Affect Processing and Yields When Gang-Ripping Red Oak Lumber, C.J. Gatchell and R.E. Thomas, 10:85-90 (No. 8559).

Marketing, Management, and Economics

An Analysis of Wood Pellets for Export: A Case Study of Sweden as an Importer, P.B. Aruna, J.G. Laarman, P. Araman, and F.W. Cubbage, 6:49-52 (No. 8563).

Assessing Educational Needs of the Forest Products Industry in Oregon and Virginia, E. Hansen and R. Smith, 4:36-42 (No. 8479).

Business Cycles and Forest Products Industries, J. Gan and S.H. Kolison, Jr., 4:23-26 (No. 8565).

A Characterization of the Texas Pallet Industry, J.H. Michael, 2:27-30 (No. 8491).

China's Economic and Demographic Growth, Forest Products Consumption, and Wood Requirements: 1949-2010, Y. Zhang, J. Buongiorno, and D. Zhang, 4:27-35 (No. 8505).

The Effects of Marketing Practices on Stumpage Returns in Nonindustrial Private Forest Timber Sales in Western Oregon, M. Bennett and D.A. Cleaves, 5:23-28 (No. 8532).

Global Markets for U.S. Hardwood Components, M.P. Haas and P.M. Smith, 3:45-51 (No. 8494).

Intercultural Communication and the U.S.-Japan Lumber Trade: An Exploratory Study, P. Oblander and S.E. Daniels, 3:38-44 (No. 8484).

The Internet and the Forest Products Industry: Current Status and Projected Trends, R.P. Vlosky and R. Fontenot, 11/12:33-40 (No. 8618).

Inward and Outward Foreign Direct Investment: The Case of U.S. Forest Industry, D. Zhang, 5:29-35 (No. 8525).

Labor Dispute Reconciliation in a Forest Products Manufacturing Facility, J.H. Michael, 11/12:41-45 (No. 8582).

The Louisiana Secondary Solid Wood Products Industry, R.P. Vlosky, N.P. Chance, and J. Doucet, 7/8:29-34 (No. 8575).

Market Responses to the U.S. Timber Demand-Supply Situation of the 1990s: Implications for Sustainable Forest Management, R.M. Martin and D.R. Darr, 11/12:27-32 (No. 8627).

Nondestructive Evaluation for Detection of Honeycomb in the Sawmill: An Economic Analysis, R.B. Anderson, J.K. Wiedenbeck, and R.J. Ross, 6:53-59 (No. 8558).

A Qualitative Evaluation of the U.S. Timber Bridge Market, R.L. Smith and R.J. Bush, 1:37-42 (No. 8388).

Regional Economic Contributions of the Forest-Based Industries in the South, P.B. Aruna, F. Cubbage, K.J. Lee, and C. Redmond, 7/8:35-45 (No. 8555).

Sources of Competitiveness for Secondary Wood Products Firms: A Review of Literature and Research Issues, K. Hoff, N. Fisher, S. Miller, and A. Webb, 2:31-37 (No. 8468).

Survey and Mapping of Wood Residue Users and Producers in Louisiana, C.F. de Hoop, S. Kleit, S.J. Chang, R. Gazo, and M.E. Buchart, 3:31-37 (No. 8432).

Twenty-Year Trends in Practices of Illinois Timber Buyers, J.E. Phelps and D.R. McCurdy, 9:31-32 (No. 8606).

Willingness to Pay for Environmentally Certified Wood Products: A Consumer Perspective, L.K. Ozanne and R.P. Vlosky, 6:39-48 (No. 8542).

Wood Utilization Research Dissemination on the World Wide Web: A Case Study, D.L. Schmoldt, M.F. Winn, and P.A. Araman, 6:25-31 (No. 8541).

Milling and Machining

Effect of the Rotation Speed on the Size Distribution of Black Spruce Pulp Chips Produced by a Chipper-Canter, R.E. Hernández and J. Boulanger, 4:43-49 (No. 8358).

A Systemic Modeling Approach to Reengineering Sawmills: A Supplier's Perspective, R. Beauregard, M. Beaudoin, D. Ait-Kadi, and J-P. Mongeau, 2:38-46 (No. 8326).

Physics and Moisture Relations

Calibration of Moisture Meters for Baldcypress (*Taxodium distichum*), Q. Wu, 10:77-78 (No. 8622).

Pressurized Final Steam Conditioning, A.N. Haslett and R. Bates, 10:64-68 (No. 8572).

Reduction of Growth Stress in Logs by Direct Heat Treatment: Assessment of a Commercial-Scale Operation, Á. Tejada, T. Okuyama, H. Yamamoto, and M. Yoshida, 9:86-93 (No. 8581).

Process Control/ Quality Control

Increased Use of Automated Machinery Requires Changes in Quality Control Procedures, D.W. Patterson, R.B. Anderson, and H.E. Rockwell, 1:33-36 (No. 8537).

ISO 9000: Issues for the Structural Composite Lumber Industry, S.G. Winistorfer and H.J. Steudel, 1:43-47 (No. 8475).

Modeling the Communication Network in a Sawmill, J.H. Michael and J.G. Massey, 9:25-30 (No. 8583).

Pulp and Paper

Effect of Cutting Width and Cutting Height on the Size Distribution of Black Spruce Pulp Chips Produced by a Chipper-Canter, R.E. Hernández and J. Lessard, 3:89-95 (No. 8357).

Recycling and Residue Utilization

Production of Compost From Furniture Manufacturing Woodwastes, H. Borazjani, S.V. Diehl, and H.A. Stewart, 2:47-48 (No. 8539).

Used Pallets as a Source of Pellet Fuel: Current Industry Status, P.B. Aruna, J.G. Laarman, P. Araman, E. Coulter, and F. Cubbage, 9:51-56 (No. 8587).

Testing and Test Methodology

Detection of Termites With Acoustic Emission, R.L. Lemaster, F.C. Beall, and V.R. Lewis, 2:75-79 (No. 8485).

Timber Production and Harvesting

Comparison of Mechanized Systems for Thinning Ponderosa Pine and Mixed Conifer Stands, B.R. Hartsough, E.S. Drews, J.F. McNeel, T.A. Durston, and B.J. Stokes, 11/12:59-68 (No. 8619).

Evaluation of Harvest Planning Training, R.M. Shaffer and G.S. Meade, 7/8:69-71 (No. 8566).

Logger Certification and Training: A View From West Virginia's Logging Community, A.F. Egan, C.C. Hassler, and S.T. Grushecky, 7/8:46-50 (No. 8570).

Manual Felling Time and Productivity in Southern Pine Forests, D. Lortz, R. Kluender, W. McCoy, B. Stokes, and J. Klepac, 10:59-63 (No. 8497).

Productivity and Cost of the Ponsse 15-Series, Cut-to-Length Harvesting System in Southern Pine Plantations, R.A. Tufts, 10:39-46 (No. 8446).

Productivity of Rubber-Tired Skidders in Southern Pine Forests, R. Kluender, D. Lortz, W. McCoy, B. Stokes, and J. Klepac, 11/12:53-58 (No. 8498).

Simulating a Harvester-Forwarder Softwood Thinning: A Software Evaluation, D.M. Aedo-Ortiz, E.D. Olsen, and L.D. Kellogg, 5:36-41 (No. 8454).

Simulation of Woodyard Inventory Variations Using a Stochastic Model, L. LeBel and J.S. Carruth, 3:52-57 (No. 8486).

Soil Compaction Effects of Forwarding and Its Relationship With 6- and 8-Wheel Drive Machines, F. Seixas and T. McDonald, 11/12:46-52 (No. 8604).

Tree Diameter Effects on Cost and Productivity of Cut-to-Length Systems, M.A. Holtzscher and B.L. Lanford, 3:25-30 (No. 8487).

Wood and the Environment

Investigation of Acute Toxicity of Distillates From Five Species of Wood for Fathead Minnows, J.T. Singer, R.W. Rice, L.M. Zibilske, and L. Helyar, 3:96-99 (No. 8507).

Feature Articles

The Challenges of Selecting Finishes for Exterior Wood, W. Feist, 5:16-20 (No. 8592).

The Development of OSB in the People's Republic of China, M.P. Wolcott, R.J. Tichy, H. Yukun, and Z.D. Guo, 1:19-25 (No. 8589).

Distance Learning: New Opportunities Abound, J.G. Massey, J.L. Bowyer, and S.M. Bratkovich, 7/8:20-26 (No. 8594).

The European Forest Sector in the 21st Century, K. Prins, 9:17-22 (No. 8595).

Forest Certification and its Role in Marketing Strategy, E. Hansen, 3:16-22 (No. 8591).

The Forest Products Society: Our First 50 Years, A.B. Brauner, 10:26-36 (No. 8596).

Reinventing the Forest Industry, J. Mater, 11/12:20-24 (No. 8597).

Strategies for Ensuring the Survival of Tropical Forests: Can Logging Be One of Them?, J.L. Bowyer, 2:15-24 (No. 8590).

Wood Recycling: Opportunities for the Woodwaste Resource, B. Falk, 6:17-22 (No. 8593).

Composite Panel Association Announcement

Robert E. Dougherty Educational Foundation 1998 Scholarship Nominations

Since 1986, the Robert E. Dougherty Educational Foundation has provided financial assistance to students in the fields of wood technology and forest products. The Foundation annually awards a total of $4,000 to one or two deserving undergraduates who will begin their third, fourth, or fifth academic year in the fall.

Nominations will be accepted through February 13, 1998. Nominated students must be sponsored by a member of the Foundation. Recipient(s) will be announced at the April 1998 meeting of the Foundation's Board of Directors.

Please call or write if you would like a Scholarship Nomination Form or further information.
